Description

Under Armor men's shorts. Men's shorts in black are from the limited Project Rock collection. They are made of durable and flexible fabric, which will allow maximum comfort for the entire time of wearing. Black shorts for men have the Project Rock logo on the right leg. 4-way stretch technology guarantees a high level of mobility.

Branded shorts are ideal for sports activities. The material of the men's shorts wicks away sweat perfectly and dries quickly. An elastic waistband with internal drawcords also contributes to comfort. The side pockets are a matter of course, and the bonus is the inner pocket for small items.
