Description

Under Armor men's leggings. Leggings from the Project Rock collection are a must-have for athletes. The advantage of sports leggings is the HeatGear® material, which is light and provides excellent air circulation. In addition, it dries quickly.

Leggings for sports perfectly wick away sweat and dry quickly. The exercise leggings have mesh panels that contribute to the breathability of the leggings. The wide elastic waist perfectly adapts to the figure. A bonus is the Strength Pocket™ on the right side. Under Armor black leggings are ideal for sports activities and training.

Product details:

- HeatGear® fabric is super light, breathable and quick drying
- Smooth ArmourPrint on the thighs adds extra durability
- The material wicks away sweat and dries quickly
- Strategic mesh panels for greater breathability
- Wide elastic waistband with inscription detail
