**Quantity**

**Suggested retail price:** 59.99 € s DPH

### Description

Exustar pedals. Bicycle pedals are made of CNC aluminum. The pedals are single sided and have a low profile. Exustar pedals are compatible with the Shimano SPD system and have a single-sided lock with adjustable release force. Exchangeable pins are an advantage.

The flat pedals have an encapsulated Cr-Mo axis. They have LSL roller bearings. They are suitable for mountain bikes and have a pedal device with a one-sided retractable function. Their dimensions are 108.5mm x 100mm and the weight is 406g/pair.
