Description

Red Bull Spect ski goggles. Goggles for skiing stand out for their light construction and durability. They are flexible even at low temperatures and resistant to oils and lubricants. Ski goggles have a large lens that ensures excellent peripheral vision. At the same time, it is scratch and abrasion resistant. F°SCAPE Anti-Fog technology is a guarantee against fogging.

You can also use the ski goggles while snowboarding. The snowboard goggles have a cylindrical lens and provide 100% protection against UVA and UVB. Thanks to the high-quality polyester foam, the Red Bull glasses are comfortable even during all-day wear. FREE°D technology corrects light refraction and thus prevents optical distortion.

Product details:

- Lightweight TPU polyurethane frame
- The frame has high abrasion resistance
- The mesh structure in the frame provides good air circulation to prevent fogging
- Soft foam with a pleasant fleece layer on the face
- Elastic strap with anti-slip silicone layer on the inside
- Cylindrical lens with horizontal curvature for excellent peripheral vision
- 100% UVA and UVB protection
- FSCAPE Anti-Fog drains condensed water directly from the lens surface, effectively preventing fogging
- Free-D-Tech corrects light refraction and prevents optical distortion
- OTG - through the glass: compatible with corrective glasses
