Description

Red Bull Spect ski goggles. Stylish ski goggles are also suitable for snowboarding. Thanks to the universal size and adjustable strap, they can be worn by both men and women. They have a modern sporty design and will certainly complement your outfit. Red Bull glasses have a spherical lens that ensures a wide field of vision. It is twice curved and its shape is similar to the shape of the eyes, which guarantees less optical distortion.

The branded ski goggles have a light polyurethane frame. It is highly resistant to wear and tear. Red Bull Spect glasses will also provide you with UV protection. Facial foam and an inner silicone band ensure comfort during wear. They are anti-fog and anti-scratch. F° SCAPE technology prevents fogging and Free D technology corrects light refraction and prevents optical distortion. They are an excellent accessory for skiing and snowboarding.
