### Description

Red Bull Spect ski goggles. Branded glasses are suitable as women's and men's ski glasses. They have a modern sporty look and design that will liven up any ski outfit. Red Bull glasses have high-quality lenses with a CAT2 filter. Cylindrical lenses ensure excellent peripheral vision, intense contrasts, vibrant colors and sharp vision. The glasses have a TR90 polyurethane frame characterized by high wear and abrasion resistance.

Branded glasses will also provide the necessary UV protection. They have anti-scratch treatment and Free D technology corrects light refraction and prevents optical distortion. The Anti-fog treatment against lens fogging is also an advantage. You can easily adjust the size using the strap with the brand's logo. They are a great choice for skiing and snowboarding.
