Description

Red Bull Spect ski goggles. Branded glasses will charm you with their stylish design. The ski goggles have cylindrical lenses made of polycarbonate with horizontal curvature, which ensure an optimally wide field of vision and enable excellent peripheral vision. A light polyurethane frame that is abrasion resistant and at the same time ensures very good air circulation.

A plus is the F°SCAPE Anti-Fog technology, whose task is to prevent fogging of the lens. Ski goggles also have protection against scratches. On the slopes, you will appreciate the UV protection from sunlight. FREE°D technology corrects the refraction of light, preventing optical distortion. The ski goggles are easy to adjust thanks to the wide strap with a non-slip silicone inner layer. An ideal choice for a winter holiday.

Product details:

- Lightweight TPU polyurethane frame
- The frame has high abrasion resistance
- The mesh structure in the frame provides good air circulation to prevent fogging
- Two-layer foam with a comfortable face fleece layer
- Elastic strap with non-slip silicone inner layer and logo print
- Cylindrical lens with horizontal curvature provides excellent peripheral vision
- 100% UVA and UVB protection
- FSCAPE Anti-Fog drains condensed water directly from the lens surface, effectively preventing fogging
- Free-D-Tech corrects light refraction and prevents optical distortion
