Suggested retail price: 115.99 € s DPH

Description

Red Bull Spect ski goggles. Branded glasses enchant with an interesting look. Red Bull glasses have high-quality lenses with a CAT2 filter. Cylindrical lenses enable excellent peripheral vision, intense contrasts and sharp vision. The glasses have a TR90 polyurethane frame characterized by high wear and abrasion resistance.

Goggles for skiing guarantee excellent UV protection. They have anti-scratch treatment and Free D technology corrects light refraction and prevents optical distortion. The Anti-fog treatment against lens fogging is also a benefit. You can easily adjust the size using the strap, which adapts well. They are the perfect choice for skiing and snowboarding.
