**Suggested retail price:** 189.99 € s DPH

### Description

Red Bull Spect ski goggles. Branded glasses will impress with their clean line design. The ski goggles have cylindrical lenses made of polycarbonate with horizontal curvature, which guarantee an optimally wide field of vision and enable excellent peripheral vision. A bonus is the light polyurethane frame, which is resistant to abrasion and ensures excellent air circulation.

The benefit is the F°SCAPE Anti-Fog technology, whose task is to prevent fogging of the lens. Ski goggles also have protection against scratches. Lenses with UV protection protect against sunlight. FREE°D technology corrects the refraction of light, preventing optical distortion. The ski goggles are easy to adjust thanks to the wide strap with a non-slip silicone inner layer. A great choice for a winter holiday.

### Product details:

- Lightweight TPU polyurethane frame
- The frame has high abrasion resistance
- The mesh structure in the frame provides good air circulation to prevent fogging
- Two-layer foam with a comfortable face fleece layer
- Elastic strap with non-slip silicone inner layer and logo print
- Cylindrical lens with horizontal curvature provides excellent peripheral vision
- 100% UVA and UVB protection
- FSCAPE Anti-Fog drains condensed water directly from the lens surface, effectively preventing fogging
- Free-D-Tech corrects light refraction and prevents optical distortion
