Description

Red Bull Spect ski goggles. Branded glasses will attract attention with their stylish appearance. The ski goggles have cylindrical lenses made of polycarbonate with horizontal curvature, which guarantee a wide field of vision and ensure excellent peripheral vision. A plus is the light polyurethane frame, which is resistant to abrasion and provides excellent air ventilation.

A plus is the F°SCAPE Anti-Fog technology, whose task is to prevent fogging of the lens. Ski goggles also have protection against scratches. Lenses with UV protection protect against sunlight. FREE°D technology corrects the refraction of light, preventing optical distortion. You can easily adjust the ski goggles thanks to the wide strap with a non-slip silicone inner layer. Top choice for a winter holiday.

Product details:

- Lightweight TPU polyurethane frame
- The frame has high abrasion resistance
- The mesh structure in the frame provides good air circulation to prevent fogging
- Two-layer foam with a comfortable face fleece layer
- Elastic strap with non-slip silicone inner layer and logo print
- Cylindrical lens with horizontal curvature provides excellent peripheral vision
- 100% UVA and UVB protection
- FSCAPE Anti-Fog drains condensed water directly from the lens surface, effectively preventing fogging
- Free-D-Tech corrects light refraction and prevents optical distortion
