### Description

Red Bull Spect ski goggles. High-quality ski goggles in a modern design from a well-known brand will surely please winter sports lovers. They are extremely durable and have magnetic glass. Antifog treatment, which prevents fogging of the glasses, is a matter of course. The lens ensures a wide field of view and excellent visibility. It is made of high-quality polycarbonate with TR90 reinforcement. Nevertheless, ski goggles are light.

Red Bull glasses are also suitable as snowboard glasses. They are resistant to scratches and designed to ensure a clear view in any conditions. Snowboard goggles will also provide UV protection. The advantage is the triple foam, thanks to which the glasses are comfortable to wear and hold well with the help of a silicone strip on the inside. Thanks to the wide and adjustable strap with the brand logo, you can comfortably adjust the glasses. They fit most common ski and snowboard helmets.
