Description

Red Bull Spect ski goggles. They appeal to the kuliar with a design of clean lines, which is trendy. The ski goggles have cylindrical polycarbonate lenses with horizontal curvature that provide a wide field of vision and ensure excellent peripheral vision. A light polyurethane frame that is abrasion resistant and at the same time allows very good air circulation.

The goal of F°SCAPE Anti-Fog technology is to prevent fogging of the lens. Ski goggles also have protection against scratches. High-quality UV protection against sunlight comes in handy on the slopes. FREE°D technology corrects the refraction of light, preventing optical distortion. The ski goggles can be comfortably adjusted thanks to the wide strap with a non-slip silicone inner layer. A great choice for skiing or snowboarding.

Product details:

- Lightweight TPU polyurethane frame
- The frame has high abrasion resistance
- The mesh structure in the frame provides good air circulation to prevent fogging
- Two-layer foam with a comfortable face fleece layer
- Elastic strap with non-slip silicone inner layer and logo print
- Cylindrical lens with horizontal curvature provides excellent peripheral vision
- 100% UVA and UVB protection
- FSCAPE Anti-Fog drains condensed water directly from the lens surface, effectively preventing fogging
- Free-D-Tech corrects light refraction and prevents optical distortion
