Description

Red Bull Spect ski goggles. Thanks to their design, the glasses will especially appeal to ladies. They have a magnetic lens exchange system, thanks to which you can change the lens very quickly if necessary. They have spherical lenses. The spherical lens is double curved and you can recognize it by its typical curved shape. The shape of the disc is similar to the shape of your eyes and therefore promises less optical distortion. Boost lenses ensure intense colors and sharp vision. The light polyurethane frame is abrasion-resistant, while providing very good air ventilation.

Branded ski goggles are also a suitable choice for snowboarding. The main task of F°SCAPE Anti-Fog technology is to prevent fogging of the lens. Ski goggles are also anti-scratch. On the slopes, you will also appreciate 100% UVA and UVB protection from sunlight. FREE°D technology corrects the refraction of light, preventing optical distortion. The ski goggles can be comfortably adjusted thanks to the wide strap with the brand logo. The inner silicone band keeps the glasses in place. Red Bull glasses are an excellent choice for skiing or snowboarding.

Product details:

- women's ski goggles or snowboard goggles
- magnetic glass replacement system
- light TPU polyurethane frame
- the frame has high abrasion resistance
- F°SCAPE Anti-Fog technology prevents fogging
- double-layer foam with a comfortable face fleece layer
