### Description

Children's skates brand Fila Skates. Roller skates are intended for the smallest skaters. They are durable and comfortable. They are easy to put on and fasten. One buckle and one strap with Velcro are used for fastening. Fila children's skates have a comfortable and breathable inner shoe that ensures comfort even during longer rides. The robust and reliable sole is also an advantage.

Children's roller skates are designed for girls. Their big advantage is the MicroJem technology, thanks to which you can adapt children's roller skates to the size of the child's foot. The mechanism allows you to adjust the length of the skates. Roller skates for children grow with them, so you can use them for several seasons.

When buying children's skates, we recommend buying [a spare brake](#) . The brake is worn out by braking and therefore needs to be replaced. Wear depends on skating style, braking and frequency of skate use. Brake types change and it is possible that new models differ in technical specifications from older models. New types of brakes may not fit older types of skates.

### Product details:

- children's roller skates
- durable construction
- soft and breathable inner shoe
- buckle fastening and strap with velcro
- MicroJem technology allows you to set an individual size within 4 numbers
- wheels: 4
- wheel size: 70 mm, 72 mm
