Description

Volcano women's sweatshirt. The B-Carla sweatshirt impresses with its minimalist design . Such a smooth hooded sweatshirt is a great solution for sporty styles. The sporty nature of the sweatshirt is also emphasized by the fact that it is loose and has a shorter cut. It reaches to the waist and therefore does not restrict movement. The hood has a relatively high collar and closes with a wide drawstring. Thanks to this, the hood provides pleasant warmth and protects against the wind.

This pink women's sweatshirt is made of a blend of cotton, viscose and elastane. Cotton ensures its softness, while viscose ensures that the material will wick away moisture well. Both fibers are natural, so they ensure good air circulation. A stylish sweatshirt will ensure comfort when wearing. The sweatshirt for ladies is ideal for casual wear and leisure activities.
