Description

Women's bra brand 4F. The training bra was designed with an emphasis on beautiful design and functionality. The training bra in a distinctive yellow design will attract attention at first glance. The sports bra has a tight fit that perfectly adapts to the figure.

The advantage of the sports bra is the 4F Dry technology, which ensures good moisture drainage and a quick drying function. The bonus is the removable inserts that gently strengthen the bust. There are also reflective elements that improve your visibility in poor lighting conditions. The yellow bra for ladies is ideal for light exercises, sports activities and yoga.

Product details:

- The special structure of the 4FDry material ensures optimal air circulation and quick-drying properties, thanks to which you will stay dry and comfortable during the activity
- Low-support design for low-intensity activities such as yoga, pilates or walking
- Removable inserts slightly strengthen, additionally stabilize and lift the bust
- The non-adjustable straps do not slip off the shoulders and ensure comfort during activity
- The elastic, non-compressive belt in the lower part increases the support of the bust and enables proper adherence to the body
- Reflective elements increase visibility and safety after dark
