Description

Women's jacket brand 4F. The hiking jacket is made of ultra-light material and can be packed into the hood. The trekking windbreaker has a hydrophobic impregnation that reduces moisture absorption. The purple jacket for ladies is therefore the right companion for hiking adventures.

The hiking jacket provides great protection in adverse weather. The women's windbreaker closes with a zipper with an internal flap against the wind. The top is finished with a stand and a built-in hood. The integrated hood comes in handy in dry and windy weather. The trekking jacket has two side pockets with zip fastening. Extra durable YKK zippers are a plus of the outdoor jacket. Trekking windbreaker for ladies is ideal for trekking, camping, hiking expeditions and outdoor expeditions.
