**Suggested retail price:** 27.99 € s DPH

### Description

Lezyne bicycle pump. Compact and super efficient high-volume bicycle hand pump. It has great inflation efficiency and thanks to its practical dimensions, you can always have it at hand. It is made of precisely CNC machined and durable aluminum alloy. The handle of the cyclo pump is gently knurled so that it does not slip during use and is easy to handle.

The hand pump for the bike has a tube that is compatible with both valves - valve and autovalve. Thanks to the overlapping handle and the integrated ABS Flex tube, and considering its dimensions, the Lezyne pump offers unrivaled performance. Pocket Drive HV is an excellent and powerful mini-pump that you can put in your pocket.
