Description

Skechers women's shoes. The brand's sneakers will appeal to ladies who love the design of clean lines. White sneakers are complemented by laces with a flower print. Women's boots make a very nice impression. Thanks to the classic lacing, they adapt perfectly to the foot.

The women's sneakers have an upper made of breathable knit, which guarantees excellent air ventilation. The tip is reinforced with additional material for better protection of the toes. The soft insole allows for all-day comfort. The advantage of women's boots is the Skechers Arch Fit® insole, which supports the arch. The durable sole is non-slip. White Skechers boots are great companions for everyday wear, shopping and trips.
