### Description

Fjallraven brand backpack. Branded backpack made of polyester recycled from eleven plastic bottles. The Fjallraven Kanken backpack is dyed with SpinDye technology, which significantly reduces the amount of water and energy used. The emphasis is on sustainability. The benefit of the stylish Fjallraven backpack is the water-resistant material, so even a light rain won't surprise you.

The Fjallraven Kanken backpack has one main compartment, which is spacious enough. The zipped pocket on the front hides all the little things. Two side pockets are a plus for storing small items. The Fjallraven Kanken backpack also has a seat pad. The blue backpack is the best companion for casual wear, for school, work and leisure.
