### Description

Fjallraven brand backpack. Trendy backpack made exclusively from polyester recycled from eleven plastic bottles. In addition, no PFC substances were used in the production. The Fjallraven Kanken backpack is dyed with SpinDye technology, which significantly reduces the amount of water and energy used. The benefit of the Fjallraven branded backpack is the water-resistant material, so even a light rain won't surprise you.

The Fjallraven Kanken backpack has one main compartment in which you can store everything you need. A zipped pocket on the front is a matter of course. Two side pockets are a bonus for storing small items. The Fjallraven Kanken backpack also has a seat pad. The red backpack is a great companion for casual wear, for school, work and leisure.
