### Description

adidas originals socks. The branded socks have a medium high cut. They are made of pleasant material with a proportion of elastane, so they are flexible and can adapt well to the foot. The white socks have a ribbed hem in the upper part, which holds well and the socks do not slip.

The sports socks are decorated with a black Trefoil adidas originals logo. They are suitable for everyday wear or for light sports activities. adidas socks are suitable as both women's and men's socks. There are three pairs in the package.
