### Description

Under Armor boys kit. The sports kit is designed with clean lines. The training set is made of soft fabric that is pleasant to the touch. The tracksuit will ensure comfort when wearing. Excellent air circulation is also a bonus.

The benefit of the training set is reliable sweat drainage and a quick drying function. Functional set is a guarantee of support during sports. Two side pockets will serve to store small items. The elastic waist with an internal drawstring perfectly adapts to the figure. The black set for men is the perfect choice for training, exercise and various sports activities.

### Product details:

- Soft, lightweight knit fabric for excellent comfort and breathability
- The material wicks away sweat and dries quickly
