Description

Women's jacket by Northfinder brand. The trekking jacket is designed in a modern outdoor design. The trek windbreaker also impresses with its reliable functional properties. The high level of breathability and water resistance will please every hiker. The construction of the mountain jacket guarantees a high degree of movement. The hiking jacket also convinces with reliable wind resistance.

The strong point of the trekking windbreaker is the softshell material, which is extremely durable. The softshell jacket consists of a 3-layer thin summer softshell. In this outdoor jacket, you can also overcome difficult hiking trails. Shaped sleeves, elastic lower sleeve hem and adjustable lower hem of the jacket for ladies contribute to comfort. The classic cut provides a wide range of motion. An adjustable hood with a reinforced visor protects against sudden adverse weather changes. The hood also has wind-flex technology - the inserted elastic insert on the forehead keeps the hood on the head even in strong winds. A great choice for tourist trips, trekking, camping and outdoor activities.
