Description

Crocs children's shoes. Children's crocs have a blue design and are decorated with characters from the Mickey Mouse series. They are stylish and playful and every child will love them. Blue crocs are odor resistant and easy to clean. The advantage is the patented material Croslite[™], which prevents sweating, odor, mold and bacteria formation. Another advantage is their ergonomic shape. The shape of the insole increases arch support. They have a non-slip finish. At the back of the children's sandals there is a strap for fastening.

Children's crocs are suitable to wear especially in summer. The ventilation holes will provide the necessary air flow. You can easily combine them with T-shirts and shorts. They dry very quickly, so you can wear them during your vacation by the sea, on the beach or by the pool. Branded children's sandals are also suitable for wearing at home instead of slippers. Crocs sandals will diversify a child's outfit and delight little lovers of fairy tales.

Product details:

- children's crocs
