### Description

Salomon men's shoes. Men's trail shoes stand out with their modern design and functional features. The Speedcross model has an abrasion-resistant technical mesh upper that is breathable and also made from recycled materials. Thanks to the Ortholite inner insole, these men's running shoes are very comfortable and stand out with antibacterial properties. The padded collar of the shoe also contributes to comfort.

Salomon shoes for men have a Sensifit construction. It will provide precise and optimal foot hold. The advantage is the Quicklace™ laces known for their quick lacing system. Salomon Speedcross men's have an EnergyCell™ + midsole, which ensures exceptional energy return, as well as cushioning and durability. The Mud Contagrip sole ensures maximum grip on uneven, soft or rough terrain. Salomon trail shoes will please all demanding runners.
