Description

Crocs brand Crocs. LiteRide crocs attract attention with a stylish design that is inspired by sports. If you're looking for trendy Crocs sandals, these Crocs for both ladies and gents are the right choice. Brand crocs have LiteRide™ foam, the main function of which is comfort during everyday wear. It is super soft, light and extremely durable. Crocs sandals provide support and cushioning where your feet need it most. You will appreciate the light construction for everyday wear.

Men's or women's Crocs have a molded Matlite™ Motion upper. The perforated upper offers maximum breathability and flexibility. Crocs sandals are made of antibacterial material Croslite, which prevents odor. Sandals are very easy to maintain. There is a strip in the heel area, which serves for a better fit and stability of the foot. The raised back part of the heel also contributes to stability during walking. A plus is the non-slip sole with good grip. Crocs sandals for ladies and gentlemen are also an excellent choice for casual wear, leisure time or as footwear for the pool and aqua center.
