### Description

Junior cycling helmet brand R2. The bicycle helmet for children stands out with its light but durable InMold construction, which will provide safety for children's heads. The extended nape will provide maximum possible head protection. The pink helmet is designed for girls. It has several ventilation holes that provide the necessary air circulation. The advantage is the LED light on the back, which is an excellent protective element in poor lighting conditions. It can be turned on and off with one hand without having to take the child's helmet off.

The children's bike helmet has a practical insect net and an antibacterial padded insert. The helmet for girls is easy to fasten with the EasyLock system. The EasyFix clamping system is also simple, allowing for vertical and horizontal adjustment using a practical wheel in the back. It can be adjusted with one hand. A girl's cycling helmet is an essential accessory during cycling.
