**Description**

Tecnica women's shoes. Women's low hiking boots stand out with their high-quality design. They are suitable for summer hiking or running in alpine terrain. They have a durable and breathable upper that will provide the necessary protection to your feet. The light construction will please each of you, as well as the comfort and convenience that mountain boots offer. They have a padded collar and an Ortholite insole.

Trekking boots ensure excellent comfort and protection thanks to the innovative anatomical cut, preformed insole and EVA midsole. It absorbs shocks well. An oversized heel with stabilizer slats provides unmatched braking and improved downhill performance. Tecnica women's shoes are laced up. The multi-traction sole made of Vibram® Litebase™ technology and Megagrip™ compound rubber offers optimal grip on all surfaces, both dry and wet. This all-mountain outdoor shoe with a new level of grip is a guarantee of protection, comfort and your satisfaction.
