Description

Tecnica men's shoes. Low hiking boots stand out for their high-quality design and natural colors. They are suitable for summer hiking or running in mountainous terrain. They have a durable and breathable upper that will provide the necessary protection to your feet. The light construction will please every hiker, as well as the comfort and convenience that boots for the forest offer. They have a padded collar and an Ortholite insole. The advantage is the Gore-tex membrane, which is a guarantee of comfort, dryness and comfort in all weather conditions.

Low hiking shoes ensure excellent comfort and protection thanks to the innovative anatomical hoof, preformed insole and EVA midsole. It perfectly absorbs shocks. An oversized heel with stabilizer slats provides unmatched braking and improved downhill performance. Tecnica shoes are laced up. The multi-traction sole made of Vibram® Litebase™ technology and Megagrip™ compound rubber offers optimal grip on all surfaces, both dry and wet. This all-mountain shoe with a new level of grip is a guarantee of protection, comfort and your satisfaction.
