Description

Adidas brand socks. Stylish socks have an ankle cut. The ankle socks are designed in a design of clean lines. They are decorated with the adidas logo. The advantage of socks for both ladies and gentlemen is the soft material with a high cotton content, which is very pleasant to the touch.

Branded socks ensure excellent wearing comfort. Thanks to elastane, they are slightly elastic and perfectly adapt to the foot. Good air ventilation will also please. The adidas ankle socks have a reinforced arch and cushioning along the entire length, including the toe and heel. White adidas socks are the perfect choice for casual wear and for leisure activities.
