Description

Tecnica men's shoes. The design of the trekking shoes is designed in an outdoor style that is timeless. Men's low outdoor shoes also appeal with great functional features. Low outdoor shoes in gray design are reliable companions in the mountains. Men's hiking boots with Vibram soles guarantee a high level of grip on various types of terrain. Vibram shoes protect the feet on hard surfaces, from rocks or sharp stones.

Men's mountain boots have a midsole made of EVA material, which ensures reliable cushioning and cushioning. Hiking shoes are optimally breathable and provide super comfort when worn.

Men's forest boots adapt perfectly to the feet. They have classic lacing that fixes the foot very well. The unique pattern of the multi-layer sole is inspired by the design of MTB enduro tires made with Vibram Litebase technology

and Megagrip compound rubber. The sole offers excellent grip on all surfaces, both dry and wet. Thanks to these men's shoes, you can also overcome difficult hiking trails.

These hiking shoes can be shaped to measure in the area of the heel and arch. The inner insole of the shoe is pre-shaped.
