Description

Under Armor men's shoes. Men's running shoes will please all runners who want to improve their running performance. Black sneakers are decorated with modern elements and the Under Armor logo on the side. Running shoes for men have a light construction that is a support during running. The upper part of the running sneakers is made of a mesh material that ensures reliable air ventilation.

The strength of running sneakers is that you can pair your shoes with the [UA MAPMYRUN](#) application , thanks to which you can track and analyze your running progress.

The running shoes have a midsole with UA HOVR technology, which ensures a feeling of zero gravity and also allows for the best energy recovery. Men's running shoes have a one-piece heel construction with TPU reinforcement for excellent support and stability. The running shoes have a shaped insole made of EVA material, which will provide flexibility and super comfort. Brand sneakers are must-have footwear for active runners.

Product details:

- Under Armor black sneakers
- UA MAPMYRUN™: tracks and analyzes your running metrics to help you become a better runner (connection expires December 31, 2024)
- Upper with a minimalist design for excellent breathability
- Outer TPU heel wrap provides lightweight structure and support
- Molded EVA insole provides greater comfort, flexibility and cushioning for high performance
- Sensitive UA HOVR™ cushioning reduces impact and returns energy
