Description

Salomon men's shoes. Men's running sneakers have a modern design and, thanks to their properties, are suitable for trails and running in nature. Running trail shoes will give you maximum comfort thanks to their construction and features. The upper made of technical material will adapt to you and provide the necessary protection. The heel and toe of the Salomon shoes are reinforced, giving you stability and toe protection. Trail shoes have a waterproof Gore-Tex membrane, thanks to which you can run in them even in adverse weather conditions.

Waterproof trail running shoes for men have Quicklace™ quick lacing. The SensiFit™ construction holds the foot from the midsole to the lacing system and provides a secure, snug and practically customized wrap around the foot. The antibacterial OrthoLite® insole ensures excellent cushioning, breathability and durability, increasing the comfort and performance of the shoe.

Salomon sneakers for men have a midsole with soft and light Fuze Surge foam. The result is a smoother yet dynamic stride that's more ground-friendly. A great bonus of men's running shoes is definitely the super grippy Mud Contagrip® sole, which will provide stability and traction on both wet and dry surfaces. Salomon men's shoes are suitable for demanding terrain and will please all lovers of outdoor running.
