Description

Men's jacket by Fundango brand. The men's ski windbreaker has trendy stitching and a distinctive solid color design. It was made with seamless stitching and you can wear it with maximum satisfaction even on the coldest winter days. Its sporty cut ensures complete freedom of movement and also allows layering of technical clothing. The men's ski jacket has a Dripex waterproof membrane with a water column of 5,000mm and breathability of 5,000g/m²/24h. Thanks to the strong lime color, you will be easily recognizable on the slopes.

The men's winter jacket fastens with a zipper, which is finished at the top with a chin guard against irritation. The high collar and built-in adjustable hood are a guarantee of protection against the cold and wind. Warm filling made of synthetic fibers ensures warmth in any weather. The quilted jacket has sleeves with adjustable cuffs with Velcro fasteners. Inner cuffs with thumb holes provide protection from the cold and keep the sleeves in place. The ventilation openings on the zipper in the armpits are also an advantage.

You can find practical pockets on the jacket for the winter on the sides, on the chest and on the sleeves. The zippers used are waterproof, so they will provide protection even in torrential rains. Inside the jacket, in addition to the pocket, you will also find a practical snow belt for snaps. The sports jacket will please men who love an active lifestyle even in winter.
