Description

Hoka One One men's shoes. Running trail sneakers in a modern design will please men who love to run in the field. Trail shoes have a single-layer mesh upper with 35% recycled polyester. It is breathable and will provide the necessary ventilation and comfort for your feet. Running shoes have additional reinforcement on the toe and around the perimeter of the shoe, which provide support and protection.

Hoka sneakers have a padded tongue and shoe collar that ensure comfort. They have a classic lace-up fastening for an individual fit. The advantage of trail shoes is the initial stage of MetaRocker™, which supports natural movement and stability in one. The PROFLY midsole construction will provide softer cushioning for a comfortable run. The rubber sole ensures the necessary traction and grip. Trail boots were also made of recycled material.
