Description

Grisport men's shoes. Leather hiking shoes will delight with the GriTex membrane for higher resistance against water, wind and cold. Trekking shoes have a stabilization system for strengthening the ankle Support system. The upper part of the trekking shoes is made of durable material. Soft padded collar ensures comfort when wearing. The high-traction sole is also anti-slip.

This model of outdoor shoes is designed so that your foot feels as comfortable as possible. The Gritex membrane guarantees dryness in the shoes during the hike. The model uses technology support that is designed to protect the ankle during every phase of movement.

Outdoor footwear is ideal for hiking, trekking, leisure and casual wear. The shoes are also suitable for hunters.
