Description

Blizzard winter hat, which you can use during frosty days on the slopes or when walking around the city. Thanks to the Polycolon lining, the cap is pleasant and warm. This lining is also antibacterial.

The cap has large Blizzard inscriptions all around.

Product details:

- nice material
- lining Polycolon
- color: black/grey/red
- Blizzard lettering all around

Material:

- 50% wool, 50% acrylic

Polycolon technology:

- Polycolon-polypropylene fibers stand out for their absolute waterproofness, strong thermal insulation ability and low weight. By its properties, polypropylene surpasses any other synthetic fiber, including polyester, which is heavier and its surface is not hydrophobic - it absorbs water.
- Polycolon is a polypropylene fiber from the Schoeller company, which is the European leader in the field of synthetic fibers. Compared to other polypropylene fibers, Polycolon stands out for its softness and limited shrinkage.
