Suggested retail price: 99.99 € s DPH

Description

KODIAK women's shoes. The upper is made of robust waterproof leather, which gives the shoe a classic look. Underneath it is a waterproof membrane that does not let water through. The inside of the shoe is lined with microfibers that absorb sweat and wick it away from the shoe. All layers are breathable so that your feet feel a pleasant climate.

The shoes have a leather insole that can be removed. The sole is made of non-slip rubber and has good grip. Thus, a person feels more confident on any surface.
