Description

Blizzard junior helmet. Thanks to the InMold construction, the ski helmet is ultralight. It has passive ventilation, adjustable size and comfortable padding.

Take [the functional Blizzard cap](#) under your helmet , which has several advantages. For hygienic reasons, the helmet lining does not need to be washed so often, and for practical reasons it is another thermal insulation layer. The cap is designed so that you hardly feel it under the helmet.

[Helmet cover](#) not included! It must be purchased separately.
