### Description

Arena swimming goggles. Thanks to the wide field of vision, they provide an excellent view. Anti-fog protection will ensure that the swimmer does not have to fight with foggy vision and can fully concentrate on their performance. They do not contain PVC. The sports glasses are in black, which complement the blue lenses. They are also decorated with a minimalist brand inscription. Black swimming goggles have polycarbonate lenses with UV protection. They are resistant to damage.

The branded swimming goggles have a soft silicone strap that can be adjusted quickly and easily. Swimming goggles are an excellent aid for swimmers. It is a model that fits every type of face. Zoom X-Fit swimming goggles are suitable for swimming training.
