### Description

Children's footwear brand Crocs. Children's crocs will delight with their light construction and nice design. Crocs are made of lightweight and durable Croslite™ material. The perforated upper of Crocs shoes for children ensures excellent breathability. Children's crocs have a shaped insole with massage points that improve blood circulation in the foot.

The advantage of children's shoes is the water-resistant material, which at the same time dries quickly. In addition, they are easy to maintain and easy to clean. The back heel strap serves for a secure fit. Crocs are ideal for summer days, for the water, for the pool, for the beach and for casual wear.
