### **Description**

Spokey cycling and running backpack. The support system quickly wicks away moisture. It has a water tank with two outlets, a side pocket, a front pocket and a pocket for small items. The backpack is equipped with reflective elements on the back.

The rucksack is intended for running, cycling and hiking. The backpack is ultralight and thanks to its small volume, you can barely feel it on your back. It has a water pocket with two outlets, a side pocket, a front pocket and a pocket for small items. The running backpack has reflective elements on the front and back. The carrying system quickly wicks away moisture, has adjustable straps, a chest and hip belt for a great fit to the body.
