Description

Voxx brand socks. Trekking socks are anatomically shaped for the left and right foot. Thanks to this, hiking socks adapt very well to the feet. The advantage is the breathable material, which ensures excellent air circulation. You will definitely like high hiking socks.

Temperature class B enables comfortable wear in the temperature range from -5°C to +20°C. Outdoor socks are made of FILACTIVE® material - a yarn composed of cotton fibers and Meraklon polypropylene. This material is wear-resistant, has thermal insulation properties and wicks away moisture. Trekking socks are suitable for hiking, camping and trekking.
