Description

Voxx brand socks. Outdoor socks are anatomically shaped for the left and right foot. Thanks to this, the trekking socks adapt perfectly to the feet. The plus is the breathable material, which ensures excellent air circulation. You will definitely like high socks for hiking boots.

Temperature class B enables comfortable wear in the temperature range from -5 to +20°C. Trekking socks are made of FILACTIVE® material - a yarn composed of cotton fibers and Meraklon polypropylene. This material is resistant to wear, has thermal insulation properties and wicks away moisture. Forest socks are ideal for hiking, camping and trekking.
