**Suggested retail price:** 3.99 € s DPH

### Description

VoXX brand socks. Hiking socks perfectly absorb moisture. Socks for the forest reach about half the calf. The classic height of trekking socks is suitable for every type of foot. The advantage of trekking socks is the soft knit, which ensures excellent wearing comfort. The socks belong to temperature class B: from -5°C to + 20°C.

Outdoor socks are made of silproX material, which contains silver ions. Thanks to this material, mountain socks have antibacterial properties. The fabric of the outdoor socks has a high proportion of cotton. The natural cotton fiber wicks away sweat very well. Dark blue socks are very good companions for conquering hiking trails, trekking and outdoor adventures. Also suitable for running, walking, indoor sports and everyday wear.
