Description

Icebug women's shoes. Waterproof winter footwear equipped with a GORE-TEX® membrane ensures that your feet stay dry and warm. The shoes are very comfortable thanks to the memory EVA midsole. The Michelin Wic sole ensures good grip on all surfaces, it does not slip even when transitioning from the exterior to wet surfaces (pavements or floating floor). A long zipper on the side makes it easy to put on and take off.

The attractive design is suitable for the slopes but also for everyday wear, in the city and in the company. They have a low weight and an excellent parameter of thermal comfort.
