Suggested retail price: 14.99 € s DPH

Description

Coqui children's sandals with an ergonomic insole that absorbs shocks. Flip flops support the healthy development of your children's feet. They are made of antibacterial material CoquiAir, which reduces the risk of transferring bacteria. A soft strap in the heel area keeps the foot firmly in the shoe.

The pink sandals have holes that ensure perfect breathability. The sole is non-slip and does not leave marks on the surface. Children's sandals are suitable for casual wear, as shoes for school, on holidays or for leisure.

Product Details:
