Description

Nike women's shoes. The Odyssey React 2 Flyknit model delivers a strategic combination of lightweight Flyknit and synthetic material for support where it's needed. Nike React cushioning offers comfort with every step. Thanks to it, the boots are soft and flexible. The padded collar provides even greater comfort in the ankle area.

The boots impress not only with their technology, but also with their distinctive purple color. They live up any sports outfit. They are intended for training, running and various other sports activities.
