Description

Spokey cycling and running backpack. The carrier system wicks away moisture quickly. The cycle backpack has a water tank with two outlets, a side pocket, a front pocket and a pocket for small items. The Sprinter backpack is equipped with reflective elements on the back.

The backpack is designed for running, cycling or hiking. It is ultra-light and thanks to its small volume, you can barely feel it on your back. It has a water compartment with two outlets, a side pocket, a front pocket and a small pocket. The running backpack has reflective elements on the front and back. The sports backpack has adjustable straps, chest and waist belt for a great fit to the body.
